# S201L SINGLE SCALE (PSI ONLY) BOTTOM MOUNT

Our 'S201L' series gauge line is a quality line of industrial liquid filled pressure gauges for the oil and gas market. The glycerine filling helps dampen the effects of pulsation and vibration, while also perpetually lubricating the movement, keeping contaminants such as dirt away from all moving parts which will extend the life of the gauge.

This gauge has been specifically designed with the oil & gas OEMs, contractors and drillers in mind and are typically used on well head assemblies (both on and off shore) as well as hydraulic and pneumatic systems in any commercial or industrial application where glycerine filling is suitable for use.

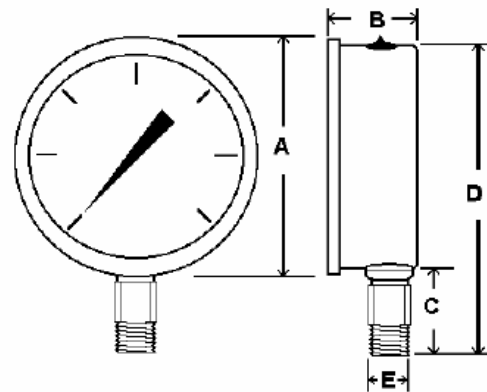

### SPECIFICATIONS:

- **Dial Sizes:** 2 1/2" or 4"
- **Connection Sizes:** 1/4" or 1/2" MNPT
- **Stainless Steel Case And Bezel**
- **Bronze Tube & Brass Connection**
- **Plastic Lens**
- **Built in Snubber** (for extra dampening effect)
- **Liquid Filled (Dry Available)**
- **Accuracy :** 1 % Full Scale
- **Single Scale: PSI Only**  
(Dual Scale available)
- **Ambient temperature:** FILLED: 30°F to 160°F  
DRY: -30°F to 180°F
